Certificate of Decontamination (Shipment)

Electronic Equipment Shipment Certification

Customer Name: _____
Address: _____
Recovery ID: _____ **Scheduled Shipment Date:** _____

Contact Person: _____
Contact Phone: _____ **Email**: _____

Equipment Information: This certification applies to all electronic equipment scheduled for shipment on the above date, regardless of make, model, or serial number. As a best practice, Customers are encouraged to provide equipment make, model, and serial number information to their Sage Customer Engagement Representative prior to shipment when available. **If there is any uncertainty regarding whether specific equipment is within the scope of this certification or acceptable for processing**, as it may fall under our Nonconforming Material Policy (NCM), the Customer should consult their Sage Customer Engagement Representative prior to shipment.

Decontamination and Exposure Declaration

The undersigned hereby certifies that all equipment being shipped to **Sage Sustainable Electronics** for repair, refurbishment, disposition, recycling, data destruction, asset recovery, testing, or any other service, has been inspected and decontaminated prior to shipment.

The Customer certifies that the equipment is free from any known biological, infectious, pharmaceutical, chemical, radiological, or hazardous contamination that may present a risk to human health, safety, the environment, or facility operations, including but not limited to **bloodborne pathogens, infectious materials, bodily fluids, bacteria, viruses, airborne pathogens, mold, biohazards, hazardous drugs, controlled substances, toxic compounds, chemical residues, waste materials, infestations, and any other contaminant requiring special handling, decontamination, disposal, or regulatory controls**.

Customer Certification

By signing this Certificate of Decontamination, the Customer certifies and warrants that:

1. The equipment identified herein has been inspected and, where necessary, cleaned and decontaminated using procedures appropriate for the known or suspected hazards.
2. The equipment is safe for handling, transportation, inspection, repair, refurbishment, dismantling, recycling, and disposal by personnel of Sage Sustainable Electronics.
3. No known contamination, residue, biological hazard, pharmaceutical hazard, controlled substance, or infectious material remains on, inside, or attached to the equipment.
4. The Customer has disclosed all known hazards associated with the equipment prior to shipment.

---

5. The Customer understands that Sage Sustainable Electronics relies upon the accuracy of this certification in accepting and processing the equipment.

Right to Refuse Service and Return Equipment

If, upon inspection, handling, testing, dismantling, transportation, or processing, Sage Sustainable Electronics determines, in its sole discretion, that any equipment:

- Contains contamination contrary to this certification;
- Presents a biological, chemical, pharmaceutical, infectious, or safety hazard;
- Requires special handling, quarantine, decontamination, disposal, or remediation; or
- Poses a risk to employees, contractors, facilities, or the environment,

then Sage Sustainable Electronics reserves the right to immediately:

- Suspend all work;
- Reject the affected equipment;
- Quarantine the equipment;
- Return the equipment to the Customer at the Customer's expense

---

Liability and Cost Recovery

The Customer is solely responsible for all costs, expenses, and liabilities resulting from undisclosed or improperly declared contamination, including inspection, quarantine, transportation, contractor services, employee exposure assessments, applicable medical evaluations, operational disruptions, and legal or collection expenses.

The Customer further agrees to defend, indemnify, and hold harmless Sage Sustainable Electronics its affiliates, officers, directors, employees, agents, and contractors from claims, damages, penalties, losses, liabilities, and expenses arising out of the Customer's failure to accurately disclose contamination or hazardous conditions associated with the equipment.

Acknowledgment

The undersigned represents that they are authorized to execute this Certificate of Decontamination on behalf of the Customer and that all information contained herein is true and accurate to the best of their knowledge.

Disclaimer

This Certificate of Decontamination is intended to support safe handling practices and does not relieve the Customer of any obligations under applicable federal, state, provincial, local, environmental, transportation, occupational safety, health, waste management, or hazardous materials regulations. Customers remain responsible for compliance with all applicable laws regarding the preparation and shipment of equipment.
